Language of instruction	German
Department / Central Institute	Department of Business and Economics

Degree programme

Would you like to combine your studies of Business Administration with professional employment? Then the part-time nature of this Bachelor's degree programme could be the right option for you. Classroom-based teaching is provided on Mondays to Fridays between 18.00 and 21.15; sometimes also on Saturdays.

Modern Blended Learning enables students to combine the advantages of a classical full-time course with innovative distance learning techniques. With teaching split equally between classroom-based and online self-study, the classroom-based teaching is performed over between 8 and 10 weekends (Friday and Saturday) from 8.00 to 16.00. We also organize a week-long block seminar per semester with teaching Monday to Friday 8.00 to 16.00.

Students can also choose to take courses from the other degree form (evening classes or Blended Learning). Those in professional employment and holders of a professional qualification (in accordance with § 11 BerlHG) can take advantage of support to facilitate assumption of their studies. A number of places on Blended Learning courses are reserved for holders of professional qualifications.

Professional field

The highly practical nature of the teaching of this Business Administration degree programme prepares its graduates for a wide range of professional tasks. Graduates of this Bachelor's degree programme can move on to further professional specialization or start a consecutive Master's degree programme. The use of state-of-the-art technologies facilitate a comprehensive learning experience and prepare graduates of this programme for a range of management activities in the increasingly-digitalized environment of both SMEs and large companies.

Degree structure

Both part-time degree programmes provide students with a cutting-edge foundation in all Business Administration and Economics topics. The programme provides sound theoretical and problem-solving training in successful and sustainable company management practices.

The degree programme is structured in two parts. Part One provides an introduction to Business Administration, which is extended in Part Two. The
