ZR Forschungsförderung & Projektteam „ProfKarriere"

STATISTICAL METHODS TRAINING: Quantitative methods to boost your research

Training in research methods for PhD students and research assistants at HWR Berlin

- **"Introduction to copulas and dependence"** on Tuesday, 19.11.2024, 13.00-16.00 / hybrid - BBB and room CS B5.44
Prof. Dr. Natalie Packham

- **"Introduction to Double Machine Learning and Causal Forests: Bridging Causal Inference and Predictive Modeling"** on Tuesday, 03.12.2024, 13.00-16.00 / hybrid – BBB and room CS B5.44 (tbc)
Prof. Dr. Markus Löcher

- **"State-of-the-art Natural Language Processing Approaches"** on Friday, 14.02.2025, 9.00-13.00 / online via BBB
Prof. Dr. Diana Hristova

- **Individual consulting opportunities**
The **open consultation** is intended as an open format, offering the opportunity to present and discuss your questions about a statistical problem and to develop a possible course of action, to evaluate advantages and disadvantages of certain methods or simply to solve thought blocks in a common conversation and to set possible directions.

- Responsible persons: Prof. Dr. Natalie Packham, Prof. Dr. Salmai Qari and Dr. Michael Graffius
- Coordination: Dr. Katharina Maak-Castro (Project staff member "ProfKarriere"/ZR Forschungsförderung)
- Enquiries and registrations for open consultation to: katharina.maak@hwr-berlin.de or forschung@hwrberlin.de
