

Dear students,

your feedback is important for good quality assurance and development. Starting this semester, each course will be evaluated.

The questionnaire was shortened by some questions. It will take you about 8 minutes to complete it.

Please note that feedback should always be constructive, goal-oriented and helpful. The section with the open-ended questions allows you to answer what you think went well and what you think went less well. The information you provide is voluntary and completely anonymous.

Thank you very much!
